Evaluation

Evaluation Process:
Brownsville ISD currently has an electronic registration online system (ERO) that tracks professional development. The Department of Instructional Technology has developed a technology training program that can be tracked by this system. The recommended numbers of hours of professional development is six hours per year within this program. Evaluation of the training is performed by the participants after it has taken place with a composite of all evaluations posted to the system for each training session. Evaluations are based on a Professional Development model that gives presenters insight as to how the training can be modified or improved. These evaluations are used to determine future training sessions and to improve existing training. In addition to the ERO system evaluations the Texas Star Chart is used to determine additional campus technology needs in the StarChart key areas. Evaluations have been integral to developing the infrastructure within the district.

Evaluation Method:
The ERO evaluations are reviewed immediately after training sessions. Technology Lead Teachers use evaluations biannually to prepare sessions for the regular school year and for summer sessions. The department of Professional Development also uses evaluation data to suggest improvements to training sessions and to delivery methods. Texas StarCharts are reviewed annually by the Department of Instructional Technology. These evaluations are used for determining the course and deployment of technology for the following school year.
Evaluations for these programs are communicated via the BISD web and an annual letter to campuses and departments discussing fund allotments and goals for the year. However, continued communication with campuses concerning technology needs is ongoing through district Lead Teachers and campus Technology Support Teachers (TSTs). Meetings held three to four times during the year with campus TSTs ensure that campuses are able to express needs that develop on the campuses during the year and how the goals and objectives of particular campuses, reflected in individual campus plans are developing. District Lead Teachers visit campuses regularly to support and monitor educators and administrator's use of technology, teaching and learning technology within the classroom as well as the Infrastructure conditions.

Either way, it won't be hard to correct. Districts have to revise plans
every year, therefore, if you copy the plan, revise, and resubmit, that
should cover the district for Year 8.

Maria Elena,

I checked the Region 12 site after I e-mailed you and saw the error.
I've emailed Region 12 and asked them about the mistake. As of April
this had reflected a three year approval.

Thanks for the assistance,

David

Maria Elena,

I received a forwarded e-mail from Robert Fisher stating Region 1 shows
BISD with a 1 year tech plan. I headed the tech planning for the
district last year and I printed a certificate from TEA showing we have
met the SLD and NCLB requirements until June 30, 2007. Could you check
and let me know?

Thanks,
David

To: David L. Mitchell
Subject: your eplan questions

David,

You had a question about your eplan and whether it had a 1 year or 3 year approval. It has a one year approval. It always had a one year approval. There was a programming problem in that those people that had requested a 3 year plan but were only approved for one year, got a 3 year certificate. This was resolved sometime early summer. If you access your plan, you can see the reviewer comments and determine what the reviewers say that needs to be changed to qualify for a three year plan.

The new corrected certificates, should have a 2 line banner next to the TEA seal rather than the 1 line banner that your original copy had.

We apologize for this error. If you have additional questions, please contact me.

Subject: RE: E-Plan

Thank you,

This helps a lot! I can breathe a little easier. I copied the plan over already so now I'll work on the individual activities timelines then get the budget info in place. I appreciate the quick response.

David

Good morning,

Here's the timeline,

Nov 1: Yr. 8 Submit for Approval is open
Jan 3: Update Submission opens
Mar 31: Deadline for approval before
                July 1, 2005
Feb - Mar: Yr. 8 Reviewer Training
June 30: Update Deadline

If you had a one year approval, you need to write the new plan before
the Form 470. You can copy the current plan and edit that one to update.
The plan does not have to be approved before the Form 470. Approval will
come later, but before July 1.

The reveiwers probably thought the hardware budget was not sufficient to
cover what you are requesting. You need to include all funds--NCLB, the
Technology allotment (Fund 411), other federal funds, local funds, and
E-Rate funds.

Regarding the tighter timeline, the reviewers probably thought the
timeline needed to be more specific for certain items. It is okay to
indicate "ongoing" or "2004-2007" for some of the items, but not for
every item. For example, if you are going to implement IP telephony in
the Spring of 2005, you would need to indicate that. (Spring, 2005)

Please need me know if you need more help.

Sincerely,
Maria Elena Ovalle

To: Maria Elena Ovalle
Subject: E-Plan

Good Morning Maria Elena,

I am working on BISD's e-plan and had a few questions. Region 12 told
there was a timeline available through SEDL and I can't find it.
According to the approval process it has to be submitted before form 470
is submitted? Isn't that a lot earlier than last year. Also, I'm
interested in addressing the following reviewer's comments.

*   Not enough funds to cover hardware needs
*   Recommend to expand on Hardware budget
*   Not enough funds on equipment budget

Does that mean we need more money or a larger percentage of the budget
dedicated to hardware? Do we need to show an increase in equipment
budget each year?

Also the a reviewer requested a tighter timeline and I'm not sure what
that means. This is a three year plan. Are there specific objectives
that need to be addressed and what would those be?

Any help would be appreciated.

Thanks,
David

Subject: E-Plan

Maria Elena,

    I'm a little confused over our E-Plan submission. We have a one
year
    plan in place that was submitted via E-plan last year. However
when I
    try go to submit our plan I only have 2 choices. They say:

    APPROVAL - FOR NEW PLANS:
    This is a new plan for my district that has not been previously
approved
        by TEA.
    (This is the first year we have used Texas e-Plan, AND this is
either
    the first submission of this plan or this is a re-submission of
the plan
    with modifications based on feedback from the peer review
process.)

    OR...

APPROVAL - FOR SIGNIFICANTLY CHANGED PLANS:
This is a revised plan, which has been approved by TEA, to which we have
made significant updates and changes to NCLB or E-Rate Goals, Objectives, Budget, or Scope of work.

If you select this option, please summarize the changes you have made to
your plan, so we can quickly understand the changes and review the
appropriate sections of your plan:

We are really neither. We have submitted and E-plan and we really
haven't suggested any major changes. All I've addressed are the concerns
of the reviewers, but it hasn't amounted to any major changes. Which do
I choose?

Thank you,

David
